

Welcome

A real highlight last week was the whole school Sports Day that took place on our Waterleat Road site but featured athletes from the whole school. It was great to see so many of our wonderful sports boys and girls excel during this day (cheered on by pupils and staff) which also saw the highest number of records being broken during a sports day for many, many years.

On top of that we also had our Year 11 Prom at the Livermead Hotel. This was an opportunity to bring our senior students back together again within a formal setting so that we could celebrate with them the end of their secondary school journey as they prepare to head off to the next stage of their careers. Proms are an enormous privilege for pupils to attend and it was wonderful seeing so many of our senior students embrace what a prom is all about. On behalf of everyone at Paignton Academy, I would like to wish them all the very best for the future. *Mr Williams*

Sports Day

This year's Sports Day was one of the most memorable in recent history. Not only was it the hottest day of the year, but 15 school records were broken - a record in itself!

Students competed in a series of track, including 1500m, 800m, 200m, 100m and mixed relays, and where we witnessed some of the closest races ever as well as field events, including Long Jump, High Jump, Shot Put and Vortex.

The atmosphere was amazing and competition between the four Houses was fierce, with just one point separating the top two before the final race. Elberry House finished as overall winners pushing Preston House into second place.

Be on the lookout for an incredible video capturing the highlights on our Facebook and Instagram!

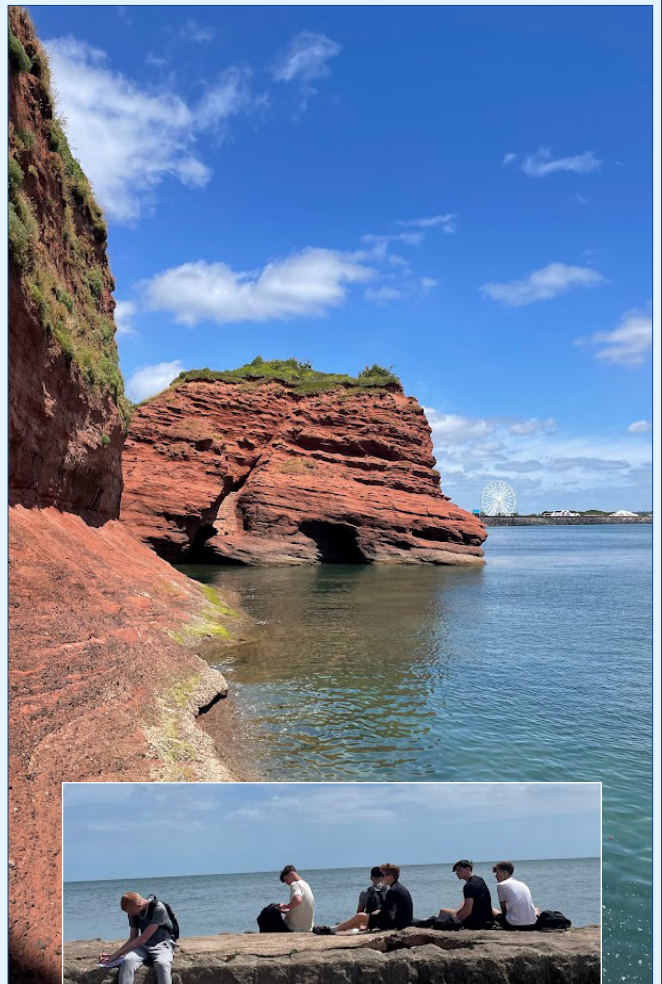

Geography Field Trip

Year 10 studying Geography visited Dawlish Warren as part of their GCSE coursework to explore UK physical landscapes.

During the trip, they measured sediment build-up along the groynes to assess the impact of longshore drift and examined the different coastal management systems implemented along this renowned coastline.

The students also experienced incredible weather during their fieldwork.
